EDUCATION

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY

Major: Computer Engineering

GPA: 2.8/4

2018 - NOW

WORK EXPERIENCE

WEBSITE

Basic knowledge

2021 - PRESENT

What can I do ?

- I have a basic knowledge of 3 skills.
- I have practiced at FREECODECAMP, W3school...
- I can create a website.
- I am learning VueJs. and angular framework.
- I have learned Algorithms but not really match with it.
- Beside, I have worked with PHP so i have a necessary knowledge for back-end.

PROJECT 1

Work management

3-2021 - PRESENT

- I have started this project with my team in university at this year.
- I make the user interface for this website.
- Basically, this website is the same with TRELLO, we have 3 objects, they user, guest and admin. The guest can register to be a user. Admin can control the system: change the theme, system, add more services,...And the user, they can create their schedule, have a note, update their working...
- We will complete this project before 5/2021.
- In this project, my responsibility is create the UI by HTML and style by CSS, create the register form which take the input from user (i use php or javascript).

PROJECT 2

Analysis and design system

3-2021 - PRESENT

- Before create a system, we need to analyze and design the system. I joined this project with my team at this semester, we have to create a Library.
- In this project, i learned UML (unified modeling language), knew how to read, draw the diagram to create the system.
- We gonna complete this project at 5/2020.

OPENEDX

online courses

3-2021 - PRESENT

- This is a big project, i joined at 3/2021 with my team not only in university, but also with BKAV members. We work as group to create the online courses extend from OPENEDX system
- My duty in this project is create theme and translate from english to vietnamese.
- I have learned a lot of things: Using Github, working with Linux, create virtual machine, using docker, ...

CERTIFICATIONS

I have TOEIC 650 in 2018, I will test again soon
